NEXT-GEN HIGH-TECH AUTO
3rd Gen Haval H6

GREAT WALL MOTORS · NEW PLATFORM

Global highly intelligent modular technology platform

Focusing on the strategic deployment of "globalization", gathering the R&D strength of "seven countries and ten regions" in the world, taking the user's needs as the core, we will build a global full scene intelligent platform with advanced intelligence, fullest extensibility, strongest security protection, highest energy efficiency ratio and extraordinary global quality, to improve the consumers' perception of space, safety, tranquility, reliability, motivation and economy, thus, comprehensively innovating the intelligent travel and life scenarios of the future, and define the new standards for future automotive intelligence.

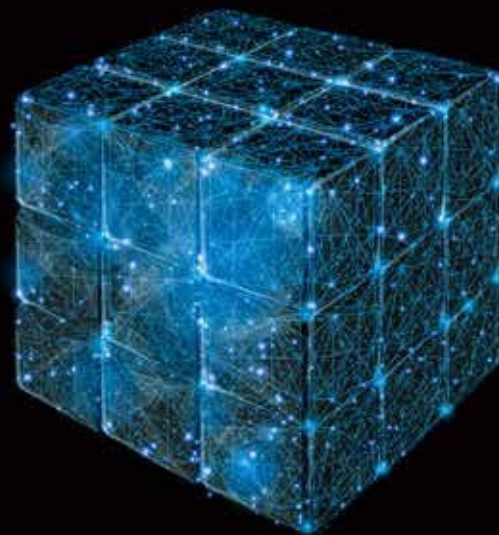

High extensibility, more choices for consumers

With the characteristics of high extensibility, the platform can carry a variety of power modes and various matching forms of engine and transmission, giving consumers more choices.

Global quality of super high standard validation

More than 6 million kilometers road test, analysis, to ensure the global recognized

mileage, multi-environment and high

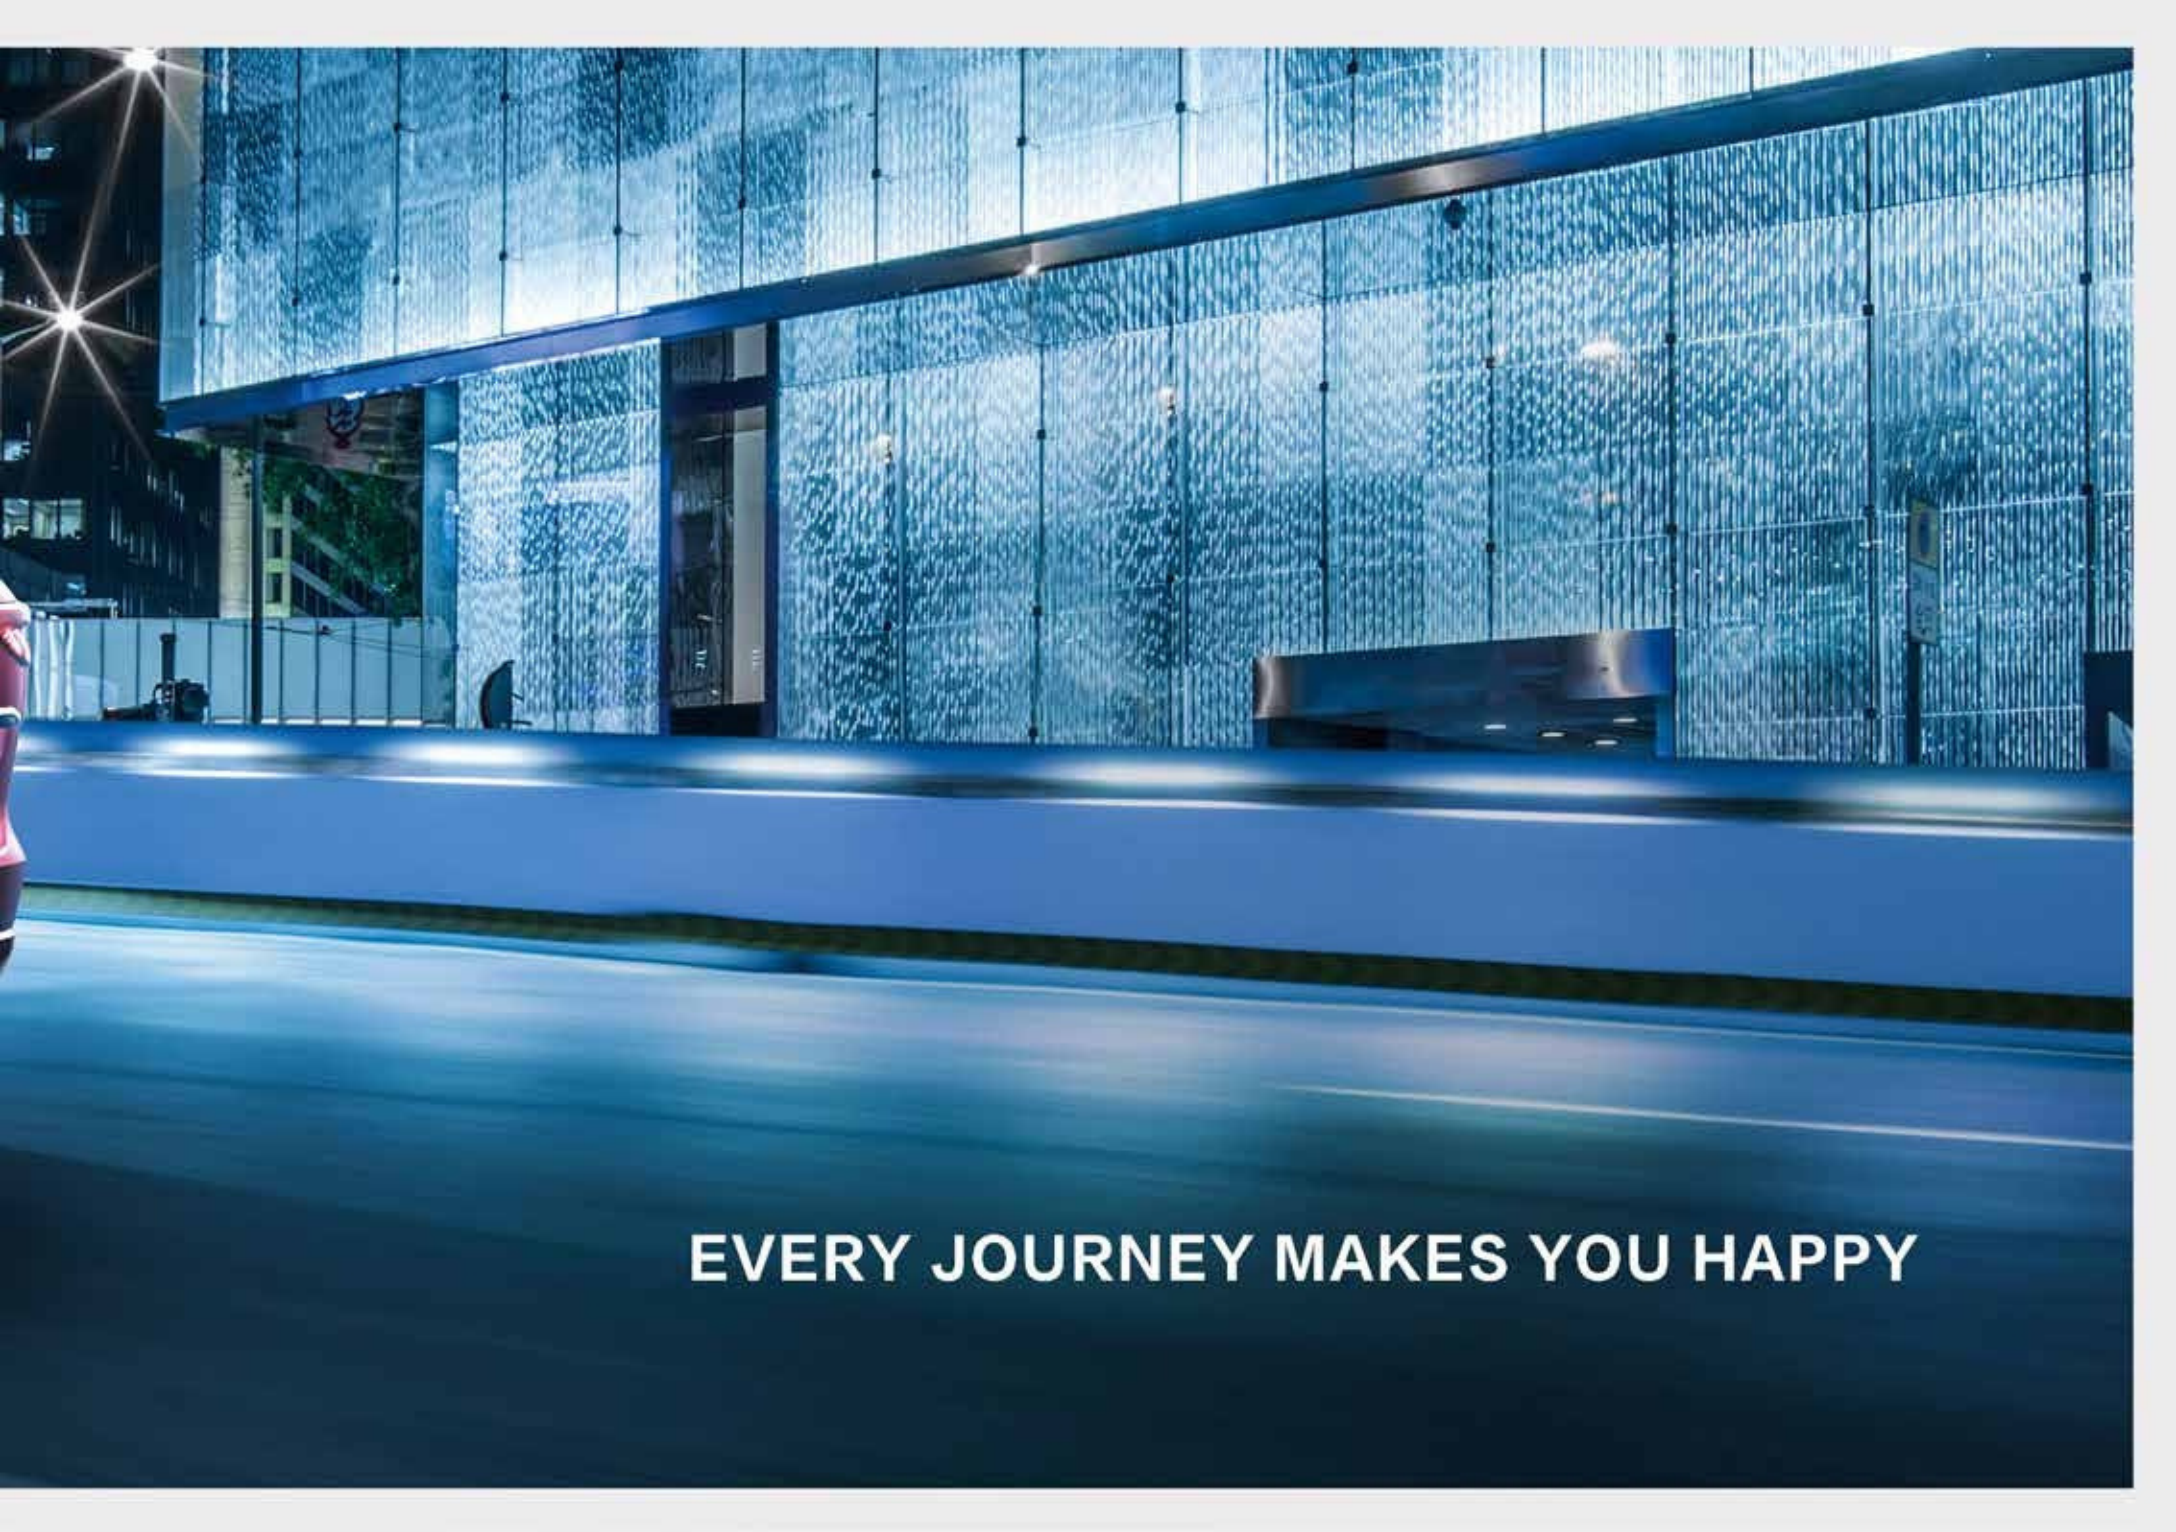

gathering 18 kinds of global typical environmental application
product quality with global high validation standards.

Lighter and more fuel-efficient

With the application of light weighting technology, the vehicle weight is reduced and the fuel economy is improved by 14.5%.

EVERY JOURNEY MAKES YOU HAPPY

2.0GDIT Gasoline

7DCT

1.5T HEV Gasoline

DHT

Front Macpherson rear multi-link independent suspension + AWD

Advanced Power

2.0GDIT ENGINE, adopts Miller cycle, electronic water pump, 12:1 high compression ratio, and other advanced technologies. The thermal efficiency is up to 38%.

4B15D HEV, The engine maximum power is 113KW, maximum torque is $233\text{N} \cdot \text{m}$ and the motor maximum power is 130kW, maximum torque is 300NM.

1.5T ENGINE, maximum power is 113kW, maximum torque is $233\text{N} \cdot \text{m}$.

The second generation 7DCT, reduced the throttle response time by 200ms, and improved the shift efficiency by 100ms.

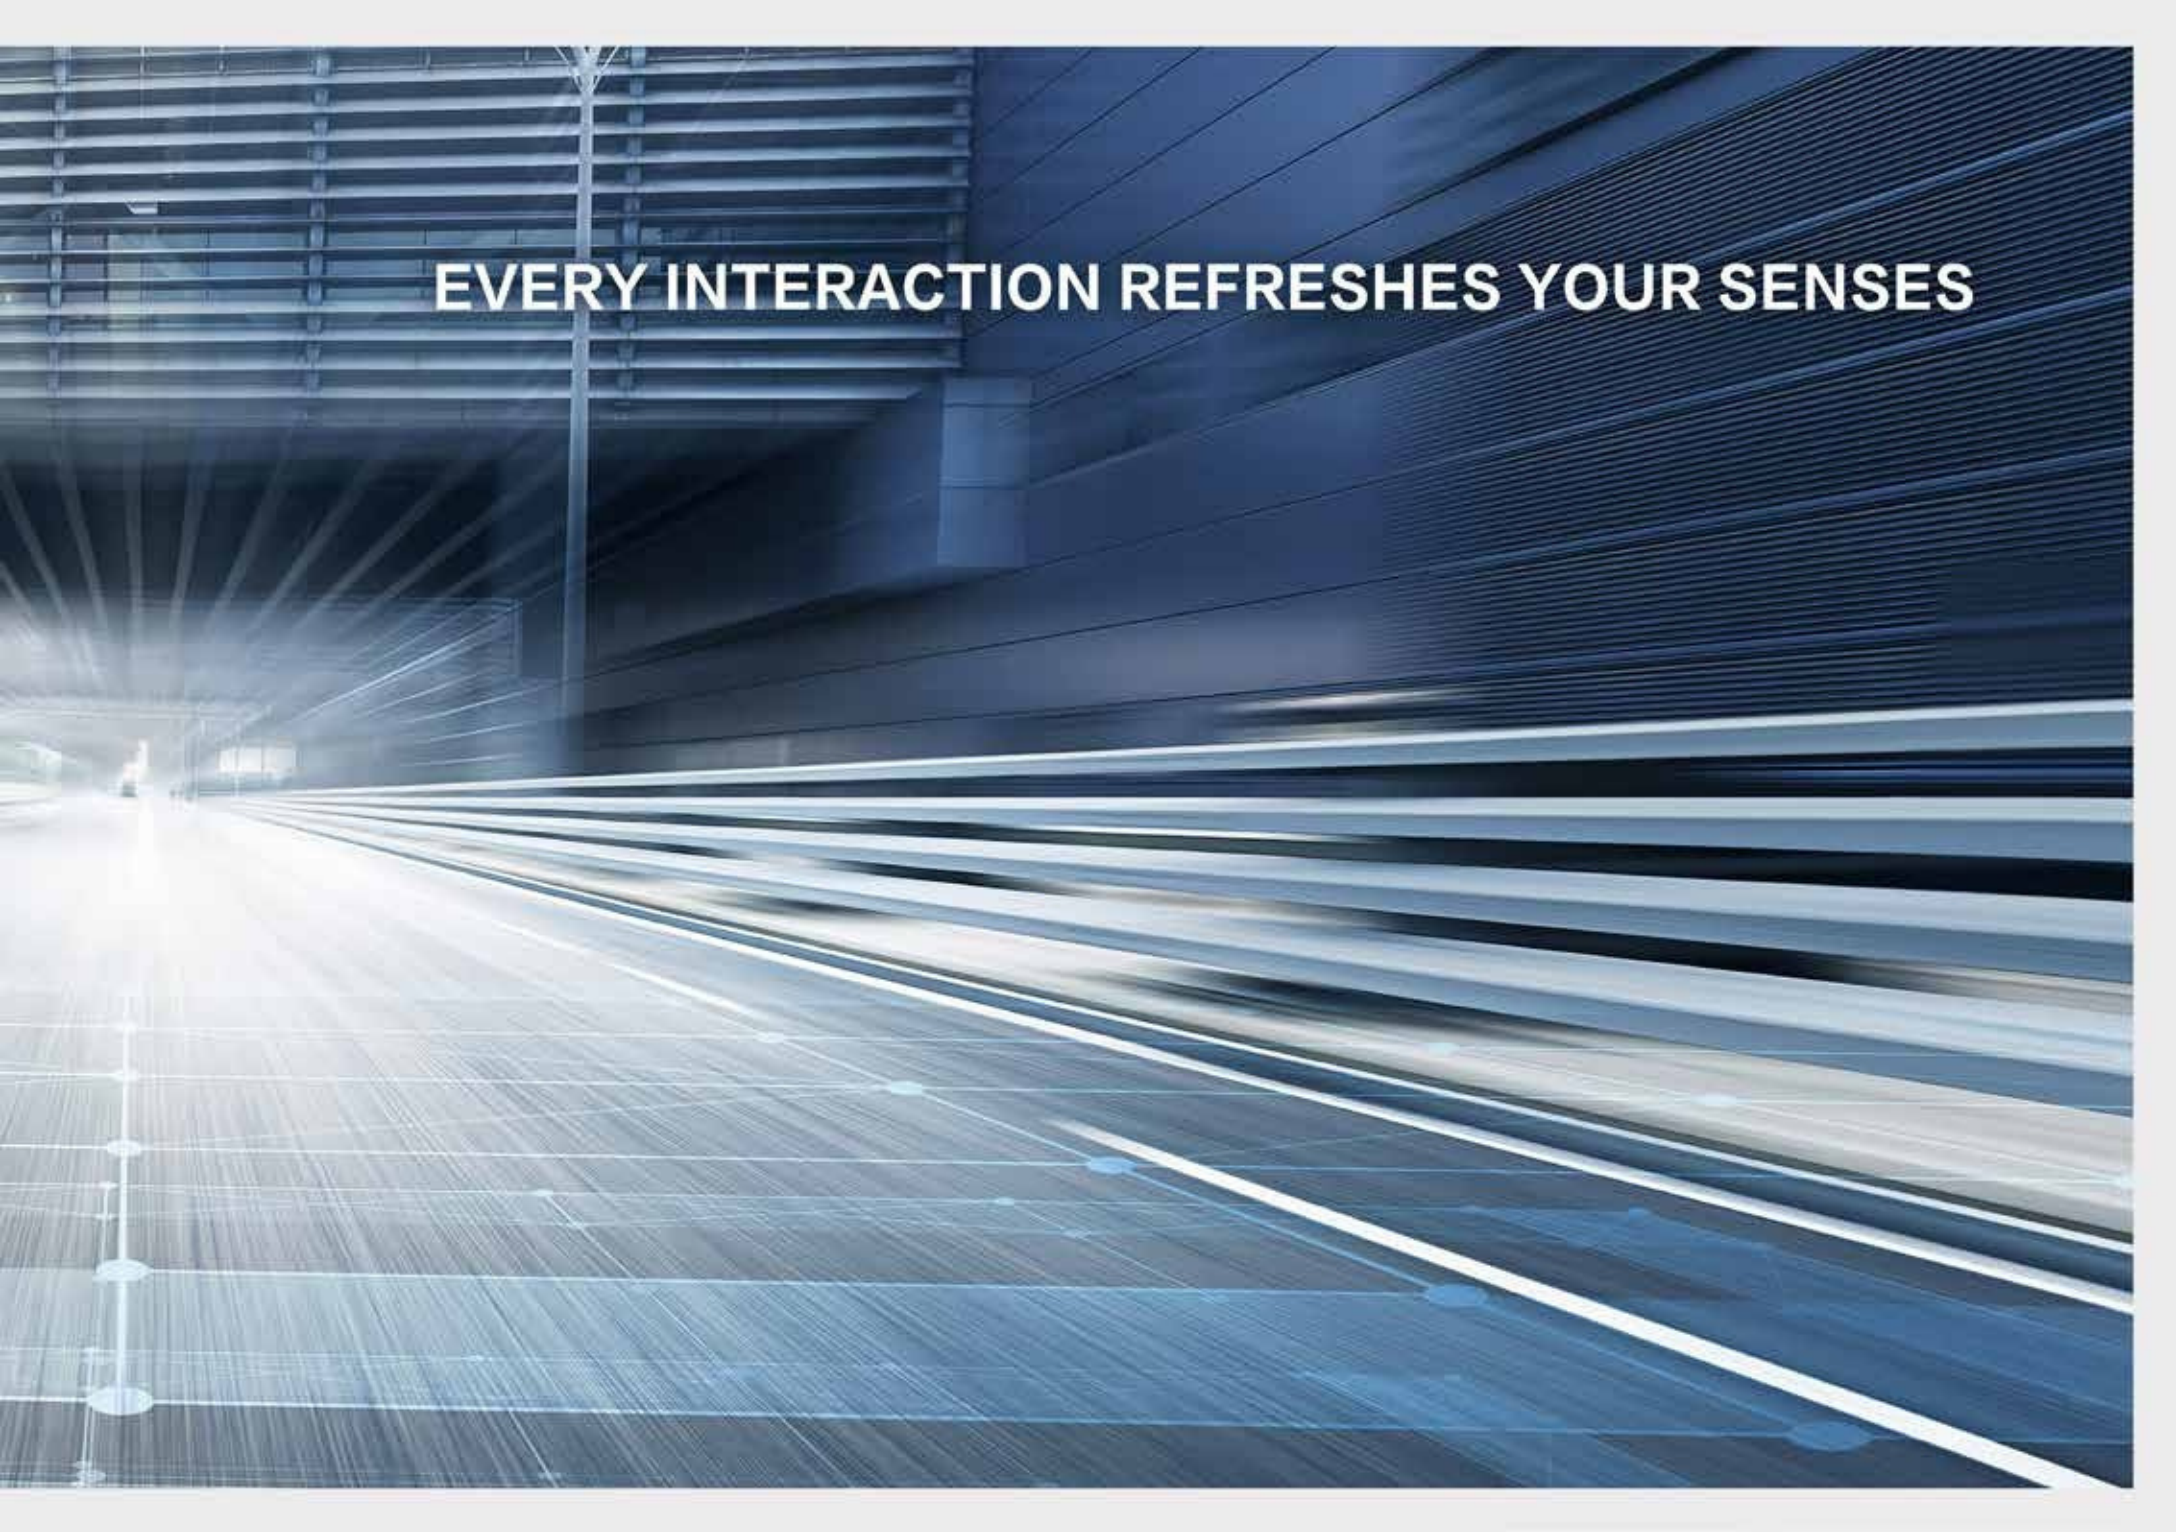

Intelligent 4WD System, can realize transient response and torque distribution between systems within 110ms, realize $1200\text{N} \cdot \text{m}$ load distribution and transmission capacity, and make the torque ratio of front and rear axles up to 50/50.

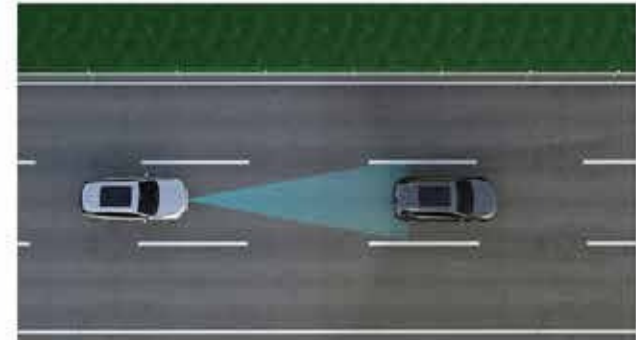

EVERY INTERACTION REFRESHES YOUR SENSES

Intelligent Mobility

L2 level automatic driving with ACC at full speed, TSR (traffic sign recognition), lane-keeping and other driving assistance functions, make your driving easy and enjoyable.

ACC+ ICA (Intelligent Cruise Assistance) +TAJ (Traffic Jam Assistance)

TSR(Traffic Signal Recognition)

LKA(Lane-keeping Assistance)

Intelligent car all the way forward

With intelligent equipment (carplay & android auto, wireless charge, w-hud), sensitive response and easy control, we stride all the way from "intelligence" to "wisdom".
