The NEW LOOK of the
ELECTRICAL hatchback

Geometry 0

we're here for YOU

Slick Design

Minimalist look

- Trend Body
- K-car design
- Panoramic sunroof

Simple and practical cockpit

- Interior color
- 9.2-inch colorful IC +8-inch colorful center screen
- Thoughtful storage compartments
- Super cute power knob shifter
- LED Eye Care Reading Light
- Vanity mirrors for driver and front passenger
- Rhythmic stereo speakers

Minimalist Look

Panoramic Roof

The only large panoramic roof in its segment, with an open view, enjoying every piece of scenery along the way.

The Only One In Its Segment

Extra large 64 inches

Sun Protection

Up to 82% light blocking

Filters 99.9% of UV rays

Benefits

Enjoy the ride and the romantic night sky on a summer night; Panoramic roof with a wide field of view reduces the sense of oppression in the K-car.

Simple And Practical Cockpit

Interior Color

White

Green

Pink

Blue-gray (fabric)

Green and white (fabric)

Pink and White (PVC+Fabric)

Simple And Practical Cockpit

9.2-inch Colorful IC + 8-inch Central Display

Redefining the K car with Technology

9.2-inch colorful IC

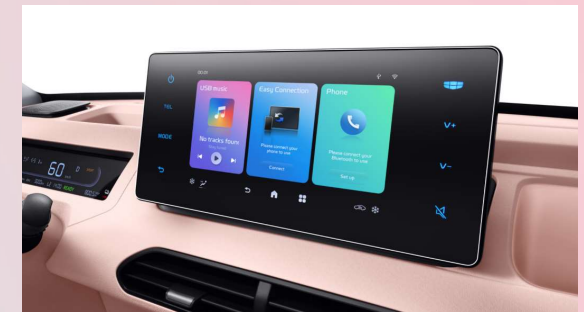

Real-time control to ensure a safe travel.

Benefits

Driving information is displayed more clearly to enhance driving safety; central display meets the needs of navigation and entertainment.

8 inches central display

HD screen with 1024*600 resolution
Support 720P video

Watch the road on the big screen and keep your phone private

Specs

Model	Geometry O
Central Display	8 inches
Instrument Panel	9.2 inches

Simple And Practical Cockpit

Rotary Gearshift

Safer: Shift to "N" automatically once door opens

Safe Gear Shifting

When parking, the gear shifts to "N" automatically once the driver-side door opens.

Benefits

Avoid the safety hazards caused by forgetting to shift the gear in daily parking, so as to make driving more at ease.

Simple And Practical Cockpit

LED Eye Care Reading Light

A light reveals a "car philosophy".

Geometry 0

***IR EV**

***A158**

One-piece switch LED reading light
Clearer white light

Mechanistic reading light switch
Poorly lit

Mechanistic reading light switch
Poorly lit

Applicable Scenarios

Scenario: Parents waiting for their children

Scenario: Searching for items left behind in the car at night

Simple And Practical Cockpit

Vanity Mirrors For Driver And Front Passenger

Keeping your makeup looking its best - Vanity mirrors for both driver and front passenger.

Vanity mirrors for both driver and front passenger

When parking, the driver and passenger can make up at the same time.

Competitor Comparison

Model	Geometry 0	*IR EV	*A158
Vanity mirror	driver & front passenger	driver & front passenger	driver

Applicable Scenarios

Getting beautiful with your bestie

Simple And Practical Cockpit

Rhythmic Mound - Raised Stereo Speakers

Audio is for the ears, not the legs.

Geometry 0 comes standard with 2 raised stereo speakers

*MI EV Conventional Door Side Speaker

*A158 Conventional Door Side Speaker

Fast charging

22kW Fast charging

Unique in its segment-22kW true fast charging, extremely fast replenishment, make driving more relaxed

22kW

Maximum charging power in its segment

30min

charging capacity:30% → 80%
(at 25°C at room temperature)

50min

charging capacity:5% → 80%
(at 25°C at room temperature)

Benefits

public fast-charging piles are used to replenish energy at high speed, which greatly reduces users' waiting time for charging and expands the radius of car travel.

Competitor Comparison

Model	Geometry 0	*IR EV	*A158
Fast Charging	● 200km 22kw True Fast Charging	-	-
Fast Charging Time Soc 30-80%	0.5h	-	-
Slow Charging Time 200km (3.3kw)	6.5	8.5	7.5 (155km) /9.8 (210km)

Fast charging

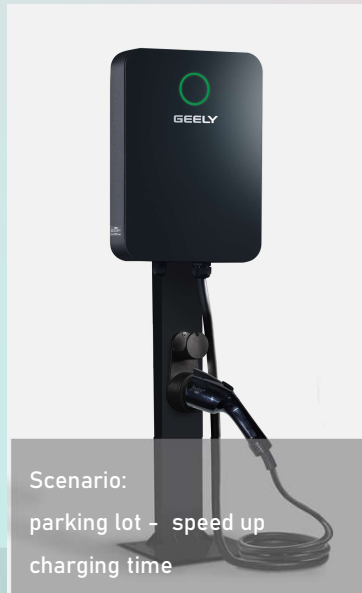

Charging at all scenarios

Can be fast or slow - most applicable modes; can be home or business - most scenarios

Portable charging gun (AC)

Household charging post (AC)

Commercial fast chargers (DC)

Focusing on users' needs, we provide the most comprehensive and fastest charging solutions for users.

Comfort and Convenience

Backup Camera + Backup Radar

Backup camera will not be blocked - clear the blind spot of vision, make parking safer.

Camera - Eliminate blind spots

Radar - not afraid of the dark

Radar + Camera = Foolproof

Comfort and Convenience

69-800L Trunk Volume + 5:5 Rear Seat Folding

800L large-capacity magic variable space - easy to cope with travel needs

800L

More longitudinal space
with rear seats down

Larger opening

More ergonomic tailgate opening

Competitor Comparison

Model	space with seats folded (H*W*D/mm)	space with seats folded (L)
Geometry 0	764* 1153 * 909	800
*IR EV	790*1140*820	704

Large opening and space

Geometry 0

Small opening and space

*NI EV

Comfort and Convenience

69-800L Trunk Volume + 5:5 Rear Seat Folding

800L large-capacity magic variable space - easy to cope with travel needs

Shop with your besties as you please

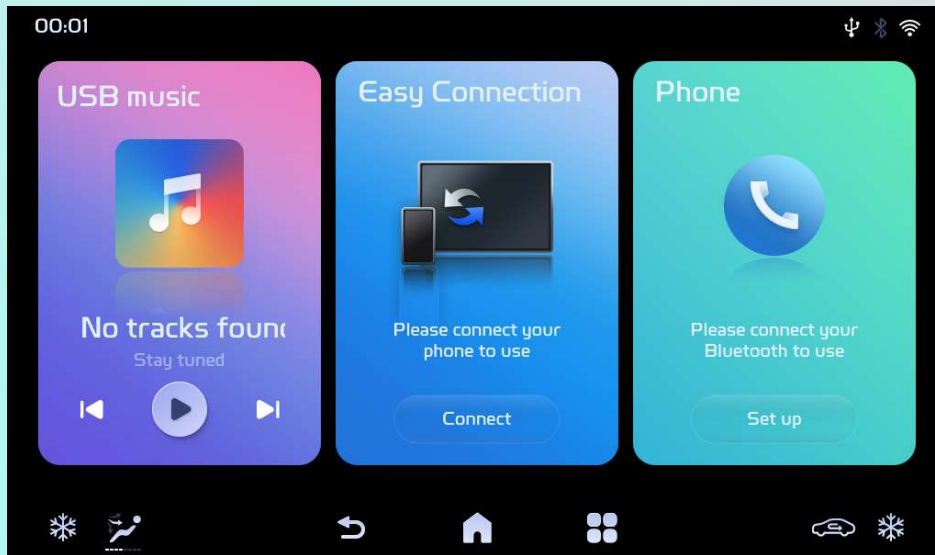

Outdoor excursions, as you wish

Easily carry small and large items you need for your trip

Connectivity

USB Connection

USB connection

Carbitlink

Applicable Scenarios

Connecting is so easy

Passenger Car Manufacturing Standards

Passive safety in sedans

Safety cannot be compromised if you want to drive well.

Driver's airbag

Effectively protects the driver's head and chest after an accident, reduces accidental injuries and protects the driver.

2 sets of ISOFIX

All rear seats are equipped with ISOFIX child safety seat connectors

Tire pressure monitoring system

Standard

Benefits

When a collision occurs, driver's airbag avoids secondary collision of the occupants; or the vehicle rolls over and other dangerous situations are thrown out of the seat;

ISOFIX child safety seat interface, easier to install and more securely fixed;

Know the tire pressure change as early as possible; Store the information with a click, more convenient; Avoid traffic accidents caused by tire failure, always guard the driving.

Powertrain Safety

Battery + Motor + Electronic Control

High-efficiency battery + motor + electronic control, mature and stable, safe and reliable

Gotion High-tech batteries

LFP batteries batteries capacity :17.03kW·h
energy density :125 (Wh/kg)

96.5%High Efficiency Permanent Magnet Synchronous Motor

Highest efficiency in its segment
120km range :20kW / 200km range :30kW

Mature electronic control

Faster response and more stable control

Benefits

The mature three-electric system brings users a higher-quality future traveling experience.

Competitor Comparison

Model	Geometry O	*IREV	*A158
batteries	Gotion	CALB	CATL / CALB /Gotion

* the actual car configuration shall prevail

Intelligent Batteries Management System

Real-time monitoring of batteries' status to ensure that the charging and discharging functions are in optimal condition

Intelligent thermal management system

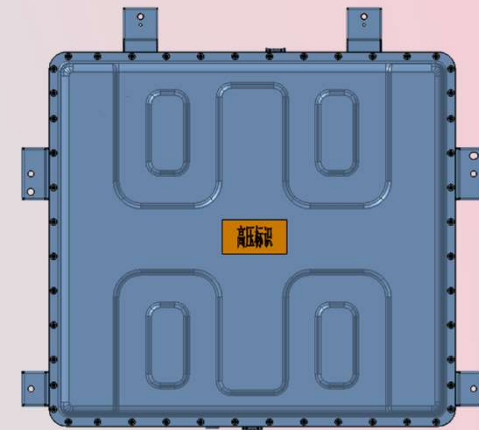

Utilizes the pack's own heating components to quickly raise the temperature of the batteries to the optimal state and enhance the user experience

Benefits

Humanized reminder for charge completion to slow batteries' attenuation;
Adjust batteries to optimal performance to dramatically improve winter charging speeds and charging efficiency, increasing winter travel range.

Low temperature charging warm-up

Plug and charge at low temperatures, intelligent batteries management system preheats batteries with built-in heating module.
